My dear Muzja,

I received your two letters of yesterday
 & the day before, together with their enclosures, for which
 I am greatly obliged. I read Mr. James's
 letter with much interest & have destroyed the
 letter. Sir Hugh Daly has been sending me
 various papers & booklets to keep me
 informed of the progress of industries & education
 in England - I wonder what he & Lady
 Daly would think of me if Mrs. G.T. writes
 to them of the chippies & I raised not square
 to Audrey House furniture!
